

SXP2-HT-SC19-5,5

Application

Fastening of single ply insulated roof panel overlaps

Component 1 (t₁)

Single-ply panel

Component 2 (t_{II})

Steel 0.4-1.0

Max

2.0

Fastener material

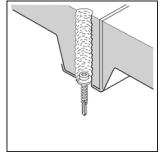

Austenitic stainless steel A2, case hardened drill point
Cutting disc: Austenitic stainless steel A2

Approvals

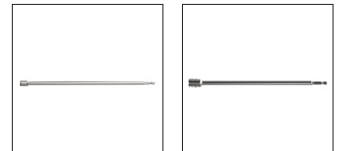

Features and Benefits

- Self-drilling fastener suitable for both the fixing of single ply insulated roof panels into light gauge steel and panel overlaps
- No pre-drilling of membrane and insulation required thanks to cutting-washer.
- Self-coring fastener without disruption of the insulating material achieved by the cutting washer
- Flexibility given to the installer due to dual drive, which provides both a Hex and Torx drive option
- Secured against unwinding given by cut-off thread-end and free-spin zone

Fastener in A2 onto steel
